MEMORANDUM FOR

Intelligence Producers Council
Central Intelligence Agency

SUBJECT: National Intelligence Topics (U)

Thank you for forwarding the preliminary responses to the NSC National Intelligence Topics questions. As you know, we devoted considerable thought and effort to preparing these questions and are particularly grateful for this opportunity to review the likely response. In this connection, it appears that a number of our priority concerns may not be satisfied. Rather than write a lengthy memorandum, which like several of our questions, may require detailed elaboration, I would propose that we meet with the relevant collection and analytical production managers to discuss our concerns. (I have in mind the actual production managers in addition to the IPC staff.) We specifically would like to review progress on questions 28, 30, and 31. (C)

Could we do this in the lull between Christmas and New Years?
Thanks again for your attention to this important issue. (U)
